

Lopesh Chandekar

SR PRODUCT
DESIGNER

SUMMARY

Sr. UI UX Product Designer with 6+ years of experience crafting intuitive, user-centred digital products across mobile, web, SaaS, and IoT platforms. Deep expertise in the full UI/UX process, from user research and information architecture through interaction design, prototyping, usability testing, and developer handoff. Proven ability to lead design across complex, multi-platform products in Agile environments, delivering experiences that balance user needs, business goals, and technical constraints.

KEY IMPACT HIGHLIGHTS

AHA Smart Homes: IoT and Smart Home UI/UX Platform

Redesigned the **AHA Smart Homes website** from scratch with a focus on conversion and product storytelling, growing monthly leads from **20 to 105+ (a 5x increase)**. Created dedicated landing pages for **Smart Lights, Smart Sensors, Smart Keypads, Smart Bathroom, Smart Office, and Smart Villa** solutions. Designed and structured a complete **SaaS platform** to streamline operations across Project Managers, Engineers, Accountants, and Installers. Designed **mobile apps (iOS & Android)** and **IoT device control interfaces**.

PVR INOX: End-to-End UI/UX for Mobile, Web and Kiosk

Redesigned the complete user experience for PVR INOX across mobile ticketing, F&B ordering, and self-service kiosk flows, reducing friction in the booking journey, improving usability across diverse user groups, and enabling faster decision-making at every touchpoint.

Agent Jack's Bar: Design System, App UI/UX and Brand Identity

Led design for Agent Jack's Bar, India's 1st virtual bartender experience across 20 outlets in 11 cities. Conceptualised and built a scalable design system and visual theme that unified the brand across all touchpoints.

(WCAG)

Conversion-Centred Design
(CRO)

AI-Assisted Design Workflows

Responsive & Mobile-First
Design

Developer Handoff & Design QA

DESIGN TOOLS

Design: Figma, Adobe XD,
Sketch

Adobe Suite: Photoshop,
Illustrator, After Effects,
Premiere Pro

Animation: Lottie / JSON-
based Motion Graphics

Other: Corel Draw, Zeplin,
InVision

Originated the logo concept and established the brand identity. Designed the witty chat-based negotiation experience, including the conversational UI where Agent Jack responds with humour, with the core idea of pairing replies with trending GIFs to make each interaction feel live and expressive. Integrated JSON-based Lottie animations to enhance micro-interactions and bring the experience to life. Additionally designed a table management and order management app for bar managers and order takers, streamlining backend operations and enabling faster service across the floor.

Vijay Sales: Retail and E-Commerce UI/UX

Led end-to-end UI/UX for one of **India's leading consumer electronics retailers** across their e-commerce platform and customer service app. Redesigned the **checkout flow** with **bank offers and coupon integration**, improving payment experience and conversion. Covered key areas including **product catalog, smart search, filtering, cart, wishlist, order tracking, and admin inventory**. Also designed a **customer service app** for post-purchase support, order management, service requests, and complaint tracking.

WORK HISTORY

Senior Product Designer

AHA Smart Homes, Mumbai | Jun 2024 – 16th April 2026

- Designed end-to-end UI/UX experiences for smart home automation platforms including SaaS dashboards, IoT device interfaces, and mobile applications.
- Redesigned the entire AHA Smart Homes website from scratch, focusing on conversion, clarity, and product storytelling, growing monthly leads from 3% to 12%
- Built and structured a complete SaaS platform from scratch, streamlining operations across Project Managers, Engineers, Accountants, and Installers.
- Built and maintained a unified design system and component library in Figma, ensuring visual consistency across 3+ products, streamlining workflows, and accelerating developer handoff.
- Drove UI/UX strategy from discovery through delivery in an Agile environment, partnering closely with product managers, engineers, and business stakeholders.

Process: Design Sprints, Agile / Scrum, Design QA

UI UX Projects : [Project Figma Links](#)

GENERAL

DOB: 23rd May 1991

Languages: English, Marathi, Hindi

- Conducted iterative usability reviews and incorporated user feedback to continuously improve task efficiency, reduce errors, and sharpen interface clarity.

Senior UI/UX Designer

Aurus IT Solutions Pvt. Ltd., Mumbai | *May 2022 – Jun 2024*

- Owned end-to-end UI/UX for Agent Jack's Bar (India's 1st bar negotiation app) including design system, logo, chat UI, JSON animations, and bar management app, alongside Quizzr (edtech) and other hospitality platforms.
- Delivered UI/UX redesigns for PVR INOX and Vijay Sales, improving user flows across mobile apps, self-service kiosks, and web platforms.
- Developed wireframes, user journey maps, and high-fidelity UI components aligned with brand guidelines and accessibility standards, improving usability and enabling smoother developer handoff.
- Integrated Lottie JSON-based animations into mobile apps to enhance micro-interactions and improve user engagement.
- Produced motion graphics and UI transitions that elevated visual quality while maintaining functional UI/UX integrity.
- Collaborated with developers and QA teams during implementation to maintain design fidelity, streamline workflows, and resolve UI/UX issues before release, reducing post-launch revisions.

Junior UI/UX Designer

Aurus IT Solutions Pvt. Ltd., Mumbai | *April 2020 – May 2022*

- Improved usability and digital adoption for the Edenred Ticket Restaurant App, a corporate food benefits platform, by designing an intuitive mobile UI/UX experience.
- Enhanced the brand experience and B2B transaction flow for Shaze Corporate Gifting Website, delivering a premium UI aligned with the luxury gifting segment.
- Owned the end-to-end UI/UX for Tyresole, a tire maintenance and tracking mobile app, improving usability and delivering intuitive screens from wireframes through to final handoff.
- Contributed wireframes, interaction flows, and UI mockups for Mobileum Active Intelligence CRM,

streamlining workflows and supporting senior designers in delivering a structured, scalable design.

- Consistently delivered projects within tight deadlines, developing strong prioritisation skills while maintaining high design quality across multiple concurrent workstreams.
