PROFESSIONAL SUMMARY

Product designer with 6+ years of experience designing scalable product systems across SaaS, mobile apps, and websites. I turn complex operations and booking journeys into clear digital products that cut extra work. Recent work includes the Vijay Sales Vise brand website, the INOX PVR booking and F&B experience, and the AHA Smart Homes operations SaaS.

KEY IMPACT HIGHLIGHTS

Vijay Sales: Vise Brand Website

Designed the brand website for Vijay Sales house electronics line of TVs, ACs, washing machines, and refrigerators, with shop-online and find-a-store paths.

INOX PVR: Movie Booking and F&B App

Redesigned the cinema booking experience and put food and beverage inside the visit, including offer discovery and QR redemption. Booking became about 6% faster and app downloads rose about 4%.

AHA SaaS System: Internal Smart Home Operations

Designed the internal tool AHA teams use to run a smart-home job from first lead to handover, with role-based UX for sales, project managers, engineers, accountants, and installers. Teams reported about 50% faster operations and 4+ hours saved per team.

AHA Smart Home Website: Conversion and Brand Site

Rebuilt the homeowner-facing website so visitors could understand the offering, trust the brand, and enquire. Engagement rose 25%, the site reached 6+ architects and interior designers, and leads contributed to INR 1 Cr+ revenue.
